

Registration Information for World Masters Athletics

We would like to remind you that all relevant information regarding the upcoming 24H World Masters Athletics (WMA) Championships is available in the [General Information Sheet \(GIS\)](#), which has been shared with the Federation and on our website as well. It is crucial for athletes to ensure their registration is reflected both on the Final Entry Form (FEF) that will be **sent** by Federations and independently **to** the organizer's website at www.albi24h.fr under the WMA tab. This registration is essential for participation in the WMA 24H Championships and will allow athletes to compete in both the IAU and MASTERS age categories combined.

The WMA competition is reserved for athletes already selected to participate by their National Federation at the 2025 IAU 24H World Championships.

The registration fee is set at a **reduced rate of €50**, and athletes will have the opportunity to compete for podium positions and win gold, silver, and bronze medals in their respective categories.

Please note that the WMA Championships are exclusively for men and women aged 35 and over (born on or before October 18th 1990), as specified in the entry requirements. Athletes must submit their registration forms to both didier.thiriot2@orange.fr and secretary@world-masters-athletics.org ensuring that all information aligns with the details provided in the FEF.

The closing date for registration is September 15th 2025 (deadline for online registration at LOC website). For further inquiries, athletes are encouraged to contact the WMA Secretary or LOC.
